

Bateman Horne Center

RESEARCH | CLINICAL CARE | EDUCATION

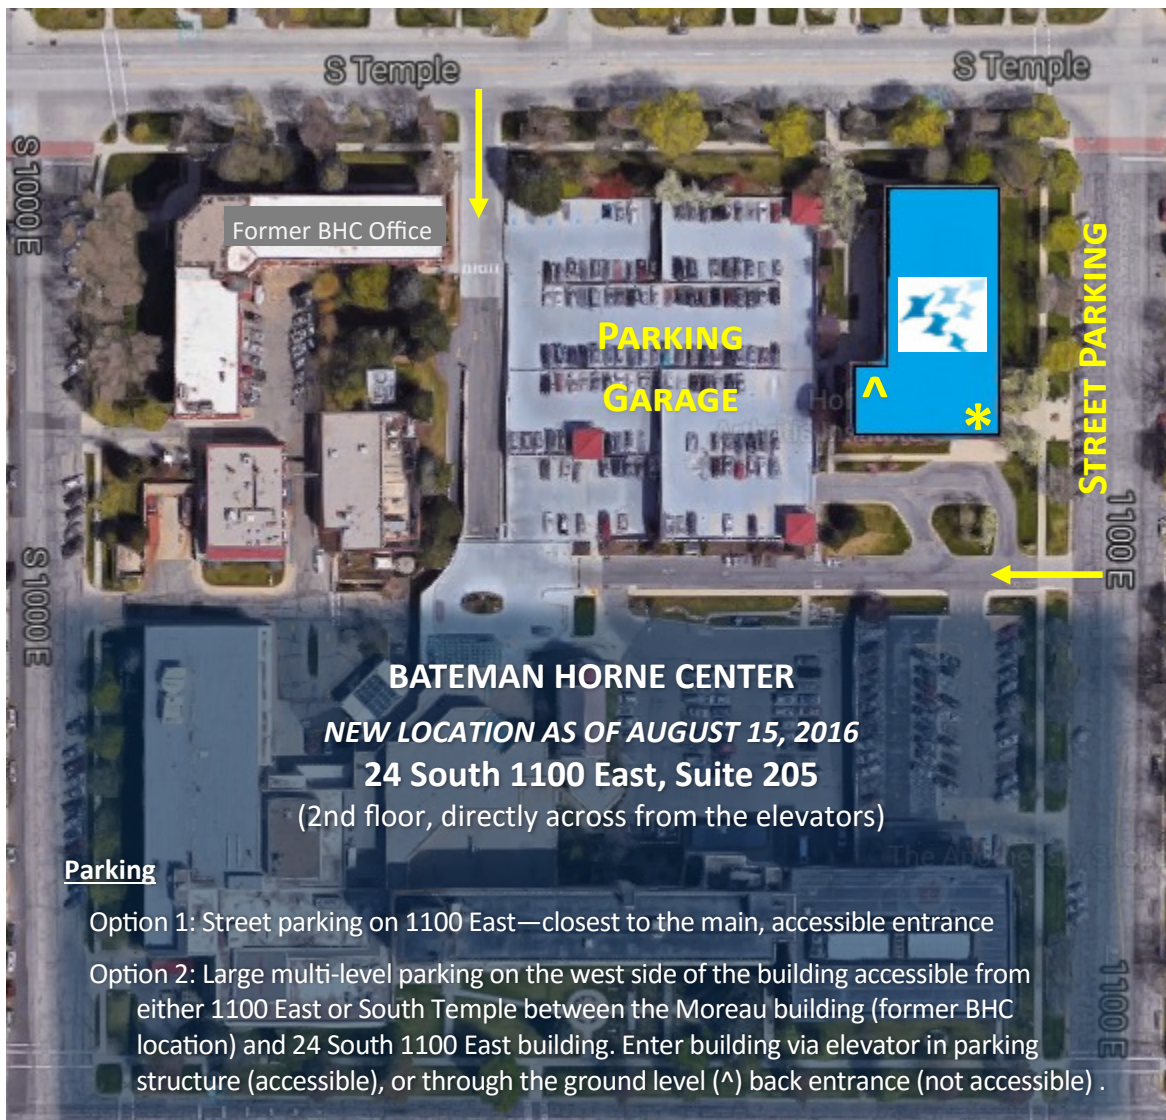

The Bateman Horne Center has been wrestling with physical and personnel capacity restrictions, too many patients waiting to be seen, for some time. With an urgent need to increase our capacity to see patients and grow our research program, we are thrilled to announce that ***We're Moving!***

We'll be in our new, larger location at 24 South 1100 East, Suite 205 — just east across the parking lot from our current location — on Monday August 15th! This move and the staff expansion underway will allow us to:

- see more patients and offer them life-altering support and care
- enroll more patients and healthy controls in the expanding pool of cutting edge, innovative research; especially those efforts targeting critical biomarker discovery
- expand educational efforts for both patients and medical providers

Thank You to all of our supporters who helped make this move possible!
See you at 24 South 1100 East, Suite 205 after August 15th!

* MAIN ENTRANCE & WHEELCHAIR ACCESSIBLE ENTRANCE

^ ALTERNATE ENTRANCE NOT WHEELCHAIR ACCESSIBLE

Parking

Option 1: Street parking on 1100 East—closest to the main, accessible entrance

Option 2: Large multi-level parking on the west side of the building accessible from either 1100 East or South Temple between the Moreau building (former BHC location) and 24 South 1100 East building. Enter building via elevator in parking structure (accessible), or through the ground level (^) back entrance (not accessible).
